Per calcolare la lunghezza del TEF-SEAL vi consigliamo di utilizzare le seguenti formule:

To calculate the guide strip length, we advise you using the following formulas:

Für die Berechnung der Länge der Führungsbänder TEF-SEAL schlagen wir Ihnen vor, folgende Formeln zu benutzen:

Pour calculer la longueur du TEF-SEAL utilisez les calculs suivants:

Para calcular la longitud de TEF-SEAL, os aconsejamos de utilizar las siguientes formulas:

Applicazione stelo - Rod application - Anwendung für Stangen
Application tige - Aplicación de vástago

$$L = \pi \times (d + S) - 0,8$$

Applicazione pistone - Piston application - Anwendung für Kolben
Application piston - Aplicación de piston

$$L = \pi \times (D - S) - 0,8$$

Fornibile in lunghezze a richiesta - Suppliable cut on request - Auf Anfrage auf Länge lieferbar
Disponible sur demande en longueurs particulières - Suministrable en longitudes bajo pedido
